HOMEMADE LIMONCELLO

It all started with a small lemon tree outside my home on the hillside of Pescara, Abruzzo.
With optimal sun exposure, the tree produced an abundance of lemons, too many to know what to do with. My mum didn't want to waste them, and so started making limoncello.
15 years on and still no lemons have been left behind.
This is a recreation of that exact recipe. **25ML 6.5**
